As a constituent in Powhatan, VA and the Virginia Director for Gun Owners of America, I support the effort to restore preemption in the Old Dominion. Restoring gun owners' rights must be a priority for our state.

Gun owners in Virginia shouldn't be faced with a patchwork of various gun control laws around the Commonwealth. Restoring preemption would prevent gun owners from being entrapped by a locality's gun control edict, but also make Virginia's parks, government buildings, recreation and community centers a safer place to be.

Ty Brooks
Virginia State Director
