

CENTRAL VIRGINIA ELECTRIC COOPERATIVE

March 23, 2022

Phillip Mobley
1834 Little Cub Rd.
Pamplin, VA 23958

Dear Mr. Mobley:

work order # 107277

Enclosed is a sketch showing your proposed new service. We will provide this service under our present Terms and Conditions for Electric Service which can be found at www.mycvec.com.

The construction cost as proposed is \$589.00 and must be paid in advance. The necessary \$25.00 new account fee will be added to your first bill. You are responsible for opening and closing the trench for the proposed cable to our specifications. It is important that you share a copy of the sketch and wiring/trenching diagram with your excavator and electrician. A total of up to \$589.00 will be subject to a usage refund as outlined in our Terms and Conditions for Electric Service. Should the account be disconnected or transferred to another party prior to the end of the three years, there will be no refund. At this time the site survey has been completed. If you choose to make changes to the work order, and a return trip is required, a \$200.00 engineering fee will be charged.

The underground lines and meter cannot go under any existing or proposed structure or through the drain fields of a septic system. If at some future date you find it necessary to build over the line, you will be responsible for the actual cost of relocating the service.

Please return this letter and sketch signed by you. All fees and charges herein referenced will be valid for ninety (90) days. All work orders will be held for 12 months. At that time if work has not begun the work order will be deleted and you will need to start the process again to proceed.

After returning all required documents, fees, and having the service wired and inspected by the County Building Inspector please contact Corey Robinson, extension 2210, to avoid any delays in starting construction. If you have any questions, please let us know.

Sincerely,

Will Myers
Staking Technician

HWM/srb
Enclosures

I have read this letter and agree to the above terms.
