

To Whom it May Concern

For over 30 years I've been in and out of treatment programs.

6 years ago I finally got a grip on my addiction and told myself I will go after my recovery like I went after my drug of choice. The pieces I had to figure out was to let go of whatever got in the way of my recovery even if it was family, friends, or children my recovery comes first today I know that everyone in Oxford houses are giving themselves a chance everyone is not gonna make it their first time I didn't but I kept coming back in this 6 years I met a lot of people I learned about different people's behaviors I learned to pay bill, hold myself and the people around me accountable and to work for what I want that is what Oxford done for me under its old rule and regulations so it was said if it aint broke then don't try to fix it and I can truly stand by the fact that Oxford houses is not broken so leave well enough alone

Sincerely John Ho
