

I am speaking in favor of HB46 by Delegate Lee Ware. My name is Kun Wang and Thirty-two years ago, I came to US **from China** for the Democratic Constitutionalism and religious freedom **we have here in America that I did not have in my country.**

What make US special among all nations and attract millions of immigrants from all the world?
To me, it is Democracy and Constitution.

Election integrity is the foundation of Democracy. Without Election Integrity, Congress and **the** government **do not have the trust of the** people, therefore, we will lose the United States of America.

Because of my love for this country, I was a first-time election officer last year. **I was shocked by what I learned and cannot understand why anyone who cares for Virginia would not be in favor of requiring a valid photo ID.** As an IT professional and Christian, I have following concerns regarding the election integrity in Virginia:

1. In Virginia, you can vote with an expired driver's license, a student ID without a valid date or even just with a utility bill.
What does that mean? It means the dead people can vote; non-residents can vote; and a young guy can vote for a 90-year-old grandma; and one-person, multiple votes.
When boarding a flight, I need to show my driver's license and have the photo matching with myself.
How come we let people vote with a utility bill?
It means politicians don't care about the election integrity, which we **the citizens** care most **about.**
2. Name matching and address matching do not matter **in Virginia now.**
As an election officer, I asked voters for their name and address. When the address not matching, we let them vote.
When names not matching, for example, middle name mismatching, chief said, that was ok too.

Without election integrity, we will lose our democracy and constitutionalism, consequently, lose **our** religious freedom.

I urge **you as the** Virginia legislature and Governor Youngkin to take action to protect our election integrity, especially, the election in 2022 and put trust back among people.

Thank you for taking my testimony.

Kun Wang
